

"The Woman's Record"

It's just out, and it's free for the asking at our store. The March number contains two very pretty stories, "The Slipper of Fate" and "Miss Sallie's Title," and an interesting poem by Henry Waldorp Francis. Its review of the latest spring tailor-made costumes is a safe and sure guide for the correct dresser. Its 10 pages of hints for the practical homemaker contains hundreds of little articles covering every household topic, from properly dusting a room to telling you how to make cream puffs and properly care for the sick.

While you're up in the furniture district, let us show you our mammoth stock of New Spring Furniture, Mattings, and present you with a free copy of this very interesting magazine for women.

Internal Commerce in January

Leading internal commerce movements for the month of January, as reported by the Bureau of Statistics of the Department of Commerce and Labor, show that the grain movements for the month were slightly larger than a year ago, and that live stock receipts at leading western markets were exceptionally high, while the movements of iron, coal and lumber show a material reduction.

Receipts of live stock at seven interior primary markets during January, 4,529,838 head, show a considerable increase over the figures for the preceding month, as well as the corresponding 1907 and 1906 receipts of 3,564,445 and 3,556,355 head. All the markets in question show larger receipts for the month than a year ago, the increase, however, being due exclusively to the larger receipts of hogs, the receipts of other classes of animals being lower than a year ago. Of the total receipts for the month, cattle constituted 761,325 head; calves, 48,830; hogs, 2,385,260; sheep, 691,958; and horses and mules, 35,955 head.

Grain receipts during January at fourteen interior primary markets, 66,441,132 bushels, were slightly in excess of the January, 1907, receipts of 65,877,375 bushels, though below the January, 1906, figure of 70,885,888 bushels. Increased receipts as compared with the 1907 figures are reported, among others, for Chicago, Minneapolis, Duluth and Kansas City, while smaller arrivals are reported by St. Louis, Milwaukee and Omaha. The total grain receipts were made up of 17,451,399 bushels of wheat, 25,321,125 bushels of corn, 16,220,225 bushels of oats, 6,458,780 bushels of barley, and 949,997 bushels of rye, besides 2,066,636 bushels of flaxseed which did not enter the grand total stated above.

Shipments of packing-house products from Chicago during the month, 213,295,123 pounds, while larger than the December, 1907, figures, mark, however, a decrease as compared with the corresponding January, 1907, and 1906 shipments of 229,174,700 pounds and 257,534,955 pounds, the main decreases occurring under the heads of fresh and pickled beef, tallow and steatins, while shipments of canned beef, 7,350,200 pounds, were about one and one-third million pounds in excess of the January, 1907, shipments, though less than half of the January, 1906, movement. Shipments of cured meats and hides were also larger than a year ago.

Live stock receipts at four principal Atlantic seaboard cities—Boston, New York, Philadelphia and Baltimore—during the month of January or the first five weeks of the year, aggregated 972,186 head, compared with 718,583 head received during the same period in 1907. Of the total received during the month at the four cities named, 117,045 were cattle, 541,306 hogs, 32,538 calves, and 280,635 sheep. The increases, as compared with the returns for January of last year, were particularly heavy in the cases of sheep and hogs.

The number of cars handled during the month by thirty-six reporting car-service associations was 2,161,127, against 2,116,436 in January, 1907, and 2,704,386 in January, 1906. While the operations reported, in all cases except two, were uniformly smaller than for January, 1907, the decrease appears to have been especially heavy in the territory covered by the Pittsburgh Car-Service Association, which reports the number of cars handled during the month as 122,130, or 45 per cent. below the January, 1907, operations. Another large decrease is reported from Philadelphia, where the January, 1908, figures, 125,581 cars handled, being about 30 per cent. below the corresponding January, 1907, figures. The Alabama Car-Service Association likewise reports a heavy shrinkage of operations, the January, 1908, total, 47,546 cars, being 34 per cent. below the January, 1907, figure.

WORK RESUMED ON VIRGINIAN ROAD

[Special to The Times-Dispatch.]

MEHERIN, VA., March 7.—Preparations for continuing the laying of track on the Virginian Railway have been resumed this week, and as soon as the line from Victoria west, that consists of almost four miles laid during the fall, has been gotten in shape the track will be continued on to Brookneal, in Campbell county, where it will be continued with the line laid from that point west.

A good force of labor is employed on the road west of Victoria at present, cleaning off the recent caves that in some instances have almost covered the track, and are spiking and getting this portion of the line in good shape so that the material can be hauled over it in order to continue the building of the track. It is estimated that this work of preparing the way will be completed in a few days, and that the work of laying the track will be taken up immediately.

Material and Men Ready.
A vast amount of material has been hauled up and stored at Victoria ready for use. In a conversation with the division engineer here a few days ago the fact was elicited that the viaducts and bridges between this point and Brookneal, Va., were being pushed as rapidly as possible, and would be ready for the track as soon as it could reach them. There seems no doubt but

All Eyes Are on the Dissolution Sale

Each Member of the Firm Desires to Go in Business for Himself.
